17. Deployment of the Proceeds is not subject to any monitoring by any independent agency. The purposes for which the Proceeds of the Issue are to be utilized are based on management estimates and have not been appraised by any banks or financial institutions.

We intend to use the Proceeds of the Issue for the purposes described in "Objects of the Offer" on page no. 54 of this Draft Prospectus. Our management may revise estimated costs, fund requirements and deployment schedule owing to factors relating to our business and operations and external factors which may not be within the control of our management. The utilization of the Proceeds of the Issue and other financings will be monitored only by the Audit Committee of the Board and is not subject to any monitoring by any independent agency. Further, pending utilization of the Proceeds of the Issue, we intend to deposit the Net Proceeds only in scheduled commercial banks included in the Second Schedule of the Reserve Bank of India Act, 1934.

Our funding requirements and the deployment of the Proceeds of the Issue are based on management estimates and have not been appraised by any banks or financial institutions. In view of the highly competitive nature of the industry in which we operate, we may have to revise our management estimates from time to time and, consequently, our funding requirements may also change.

18. We have experienced negative cash flows in previous years / periods. Any operating losses or negative cash flows in the future could adversely affect our results of operations and financial condition.

Our Company had negative cash flows from our operating activities in the previous years as per the Restated Financial Statements and the same are summarized as under.

(₹ in Lakh)

Particulars	For the year ended on		
	March 31, 2021	March 31, 2020	March 31, 2019

19. We have not identified any alternate source of raising the funds required for our 'Objects of the Issue'. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.

Our Company has not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds can adversely affect our growth plan and profitability. The delay/shortfall in receiving these proceeds may require us to borrow the funds on unfavorable terms; such scenarios may affect the business operation and financial performance of the company.

20. In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects of this Issue which would in turn affect our revenues and results of operations.

The funds that we receive would be utilized for the objects of the Issue as has been stated in the section ―Objects of the Offer on page no. 54 of the Draft Prospectus. The proposed schedule of implementation of the objects of the Issue is based on our management's estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue this may affect our revenues and results of operations.

21. There is no monitoring agency appointed by Our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by our Audit Committee.

As per SEBI (ICDR) Regulations, 2009, as amended, appointment of monitoring agency is required only for Issue size above ₹ 10,000 Lakh. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, as per the Section 177 of the Companies Act, 2013 the Audit Committee of our Company would be monitoring the utilization of the Issue Proceeds.

22. Any variation in the utilization of the Net Proceeds as disclosed in this Draft Prospectus shall be subject to certain compliance requirements, including prior Shareholders' approval.

In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Draft Prospectus without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that requires us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the Shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholders' approval may adversely affect our business or operations. Further, our Promoter or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to modify the objects of the Issue as prescribed in the SEBI (ICDR) Regulations. If our shareholders exercise such exit option, our business and financial condition could be adversely affected. Therefore, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition and may adversely affect our business and results of operations. For further details of the proposed objects of the Issue, refer "Objects of the Offer" on page no. 54 of this Draft Prospectus.

23. Our Promoters and Promoter Group will continue to exercise control post completion of the Issue and will have considerable influence over the outcome of matters

Upon completion of this Issue, our Promoters and Promoter Group will continue to own a 72.11 % i.e. majority of our Equity Shares. As a result, our Promoter and promoter group will have the ability to exercise significant influence over all matters requiring shareholders' approval. Our Promoters and promoter group will also be in a position to influence any shareholder action or approval requiring a majority vote, except where they may be required by applicable law to abstain from voting. This control could also delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from obtaining control of our Company even if it is in the best interests of our Company. The interests of our Promoter and promoter group could conflict with the interests of our other equity shareholders, and the Promoters could make decisions that materially and adversely affect your investment in the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoters and promoter group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. Except as disclosed in "Capital Structure" on page no. 32 of this Draft Prospectus, we cannot assure you that our Promoters will not dispose of, pledge or encumber their Equity Shares in the future.

24. We have not made any dividend payments in the recent past and our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing arrangements.

Although in the recent past we have not paid dividends, our future ability to pay dividends will depend on our earnings, financial condition and capital requirements. Dividends distributed by us will attract dividend distribution tax at rates applicable from time to time. There can be no assurance that we will generate sufficient income to cover the operating expenses and pay dividends to the shareholders. Our ability to pay dividends will also depend on our expansion plans. We may be unable to pay dividends in the near or medium term, and the future dividend policy will depend on the capital requirements and financing arrangements for the business plans, financial condition and results of operations. For further details, refer "Dividend Policy" on page no. 137 of this Draft Prospectus.

25. The requirements of being a public listed company may strain our resources and impose additional requirements.

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner. Failure of our Company to meet the listing requirements of stock exchange could lead to imposition of huge penalties, if any including suspension of trading, imposed by Stock Exchange.

26. *The COVID-19 pandemic, or any future pandemic or widespread public health emergency, could materially and adversely impact our business, financial condition, cash flows and results of operations.*

Since first being reported in December 2019, the outbreak of COVID-19 has spread globally. The World Health Organization declared the outbreak of COVID-19 to be a public health emergency of international concern on January30, 2020, and a global pandemic on March 11, 2020.

There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for our operations or that compliance issues will not be raised in respect of our operations, either of which could have a material adverse affect on our business, financial condition and results of operations.

3. Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse affects on our operations and financial performance

Certain events that are beyond our control such as earthquake, fire, floods and similar natural calamities may cause interruption in the business undertaken by us. Our operations and financial results and the market price And liquidity of our equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India.

However, the Indian economy may be adversely affected by factors such as adverse changes in liberalization policies, social disturbances, terrorist attacks and other acts of violence or war, natural calamities or interest rates changes, which may also affect the microfinance industry. Any such factor may contribute to a decrease in economic growth in India which could adversely impact our business and financial performance.

5. We are subject to risks arising from interest rate fluctuations, which could adversely impact our business, financial condition and operating results.

Changes in interest rates could significantly affect our financial condition and results of operations. 7. There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.

Once listed, we would be subject to circuit breakers imposed by stock exchanges in India, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker in effect from time to time, and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. GLOBAL ECONOMY

COVID-19 caused a global recession whose depth was surpassed only by the two World Wars and the Great Depression over the past century and a half. Although global economic activity is growing again, it is not likely to return to business as usual for the foreseeable future. The pandemic has caused a severe loss of life, is tipping millions into extreme poverty, and is expected to inflict lasting scars that push activity and income well below their pre-pandemic trend for a prolonged period.

The incipient recovery was initially supported by a partial easing of stringent lockdowns. Various restrictive measures have been reintroduced, however, as COVID-19 has continued to spread around the world. Some areas have experienced a sharp resurgence of infections, and daily new cases remain high. That said, there has been substantial progress in the development of effective vaccines, and inoculation has begun in some countries. A more general rollout in advanced economies and major emerging market and developing economies (EMDEs) is expected to proceed early this year. Most other EMDEs, however, face greater constraints in vaccine procurement and distribution. Until vaccines are widely distributed, effective containment strategies to limit the spread of COVID-19 remain critical.

Following the initial rebound in mid-2020, the global economic recovery has slowed. Whereas activity and trade in the goods sector have improved, the services sector remains anemic, with international tourism, in particular, still depressed. The fall in global investment has been pronounced, particularly for EMDEs excluding China. Even though financial conditions remain very loose, reflecting exceptional monetary policy accommodation, underlying financial fragilities are mounting. Most commodity prices rebounded from their mid- 2020 lows as strict lockdowns were gradually lifted and demand firmed, especially from China; however, the recovery in oil prices was more modest amid concerns over the pandemic's lasting impact on oil demand.

In all, the global economy is estimated to have contracted 4.3 percent in 2020—a 0.9 percentage point smaller collapse than was expected in June forecasts. In advanced economies, the initial contraction was less severe than anticipated, but the ensuing recovery has been dampened by a substantial resurgence of COVID- 19 cases. Meanwhile, output in China is estimated to have rebounded last year at a faster-than expected clip, with particular support from infrastructure spending. China's strength was an exception, however, and disruptions from the pandemic in the majority of other EMDEs were more severe than previously envisioned, resulting in deeper recessions and slower recoveries, especially in countries with recent large COVID-19 outbreaks.

Advanced economies are projected to recover, with growth reaching 3.3 percent and 3.5 percent in 2021 and 2022, respectively, on the back of pandemic containment aided by widespread vaccination and sustained monetary policy accommodation, which is expected to more than offset the partial unwinding of fiscal support. Although aggregate EMDE growth is envisioned to firm to 5 percent in 2021 and to moderate to 4.2 percent in 2022, the improvement largely reflects China's expected rebound. Absent China, the recovery across EMDEs is anticipated to be far more muted, averaging 3.5 percent in 2021-22, as the pandemic's lingering effects continue to weigh on consumption and investment. Despite the recovery, aggregate EMDE output in 2022 is expected to remain 6 percent below its pre-pandemic projection.

The pandemic has caused per capita incomes to fall in more than 90 percent of EMDEs, tipping millions back into poverty. For more than a quarter of EMDEs, the pandemic is expected to erase at least 10 years of per capita income gains— and, in about two-thirds of EMDEs, per capita incomes are projected to be lower in 2022 than they were in 2019. After more than two decades of steady global poverty reduction, the crisis is projected to push poverty rates back up to levels last seen in 2017. The pandemic has also impeded future prospects for poverty reduction by adversely affecting longer-term productivity growth—the deterioration in confidence has dampened investment, and the loss in learning-adjusted school years and prolonged spells of unemployment have eroded earlier gains in human capital. In low-income countries (LICs), activity in 2020 shrank 0.9 percent—the first aggregate contraction in a generation. Growth is forecast to resume at a moderate pace in 2021-22, averaging 4.3 percent. Nonetheless, output in LICs is expected to remain 5.2 percent below its pre-pandemic projections by 2022. The pandemic has hit fragile and conflict-affected LICs particularly hard, and their recovery is set to be even more sluggish, in part because the large-scale rollout of vaccines among these economies is expected to lag that of advanced economies and major EMDEs. The materialization of a number of downside risks could

derail the projected global economic recovery, however. The pandemic could accelerate, and delays in vaccine procurement and distribution could limit the scope for achieving durable containment. Even if the pandemic is brought under control, its effect on potential growth could be longer lasting than expected. Debt has surged above already-high levels and, although banking systems are generally well capitalized, a wave of bankruptcies could erode bank buffers, putting some countries at increased risk of financial crisis. In contrast, stronger-than-expected growth outcomes could result from improved pandemic management, aided by the rapid rollout of highly effective vaccines, which could trigger a sharp rise in consumer confidence and unleash pent-up demand.

In light of these risks, there are various possible scenarios for the ultimate path for global growth. In particular, in a downside scenario, new cases of COVID-19 would remain persistently higher than in the baseline in many parts of the world, and the vaccine rollout process would be slowed by logistical impediments and general reluctance to be immunized. Activity and financial conditions would deteriorate as a result. In these circumstances, global growth would be much more subdued, only recovering to 1.6 percent in 2021 and 2.5 percent in 2022. In a more severe downside scenario including widespread financial stress, global growth could even be negative in 2021.

This exceptional level of uncertainty around the near-term outlook also highlights the role of policy makers in raising the likelihood of better outcomes while warding off worse ones. Effective containment measures are key to avoid disruptive flare-ups of new cases. As such, the top near-term policy priority will continue to be pandemic control, such as sustaining compliance with social distancing and masking guidelines; increasing testing capacity; and, eventually, overcoming challenges in procuring and distributing vaccines, particularly in LICs. Timely and equitable access to vaccines across the world will necessitate global cooperation. Only once the pandemic is contained in all countries will each country be safe from a resurgence.

INDIAN ECONOMIC

The Indian economy was negatively impacted by an unprecedented health crisis in 2020-21 with the highly contagious corona virus (Covid-19) spreading across the country. In response to the pandemic, Government has taken several proactive preventive and mitigating measures starting with progressive tightening of international travel, issue of advisories for the members of the public, setting up quarantine facilities, contact tracing of persons infected by the virus and various social distancing measures. Government imposed a strict 21 days nationwide lockdown from 25th March, 2020, under the Disaster Management Act, 2005, with subsequent extensions and relaxations, to contain the spread of Covid-19 while ramping up the health infrastructure in the country. The lockdown measures, imposed to contain the spread of Covid-19 pandemic in India, ubiquitously affected employment, business, trade, manufacturing, and services activities. The real Gross Domestic Product (GDP) growth is projected to contract by 7.7 percent in 2020-21 as compared to a growth of 4.2 percent in 2019-20. GDP growth, however, is expected to rebound strongly in 2021-22 owing to the reform measures undertaken by the Government.

The Government announced a special economic and comprehensive package under Atmanirbhar Bharat of ₹ 20 lakh crore - equivalent to 10 percent of India's GDP –to fight the Covid-19 pandemic in India. Several structural reforms announced as part of the package, inter alia, include deregulation of the agricultural sector, change indefinition of MSMEs, new PSU policy, commercialization of coal mining, higher FDI limits in defence and space sector, development of Industrial Land/ Land Bank and Industrial Information System, Production Linked Incentive Schemes, revamp of Viability Gap Funding scheme for social infrastructure, new power tariff policy and incentivizing States to undertake sector reforms. Apart from this, various steps were taken to boost consumption which, inter alia, includes cash payment in lieu of the Leave Travel Concessions (LTC) scheme, One-time special Festival advance of ₹10,000 (interest-free) for central Government employees. Other steps such as Interest-free 50- year loan to states, additional capital expenditure budget for the central Government, launch of Emergency Credit Line Guarantee Scheme (ECLGS) 2.0, ₹1.46 lakh crore boost for manufacturing through Production-linked incentives for ten Champion Sectors, ₹ 18,000 crores additional outlay for PM Awaas Yojana (PMAY) –Urban, Equity infusion in National Investment and Infrastructure Fund (NIIF) Debt Platform, Demand booster for Residential Real Estate Income Tax relief for Developers & Home Buyers, Boost for Project Exports, Capital and Industrial Stimulus has been initiated to support economic growth.

The fiscal deficit and revenue deficit for 2020-21 were budgeted at 3.5 percent of GDP and 2.7 percent of GDP respectively. The BE 2020-21 envisaged a tax to GDP ratio of 10.8 percent and total expenditure to GDP ratio of 13.5 percent. The envisaged growth for Gross Tax Revenue was 12 percent over 2019-20 Revised Estimates (RE). The total expenditure in BE 2020-21 was estimated to increase by 12.7 percent over 2019-20 RE.However, the Covid-19 pandemic severely affected the Government revenues, while exerting pressure to increase Government Expenditure.

As per the data on Union Government Finances released by Controller General of Accounts for April-November 2020, the Gross Tax Revenue decreased by 12.6 percent over the corresponding period of the previous year achieving 42.4 percent of the budget estimate. The non-tax revenue declined by 46.6 percent during April- November 2020, over the corresponding

period of the previous year achieving 32.3 percent of the budget estimate. At the end of November 2020, the non-debt capital receipts stood at 8.1 percent of the budget estimate.

During April- November 2020, fiscal deficit reached 135.1 percent of the budgeted amount in 2020-21 higher relative to 114.8 percent of the budget estimate during the corresponding period of the previous year. The revenue deficit for April-November 2020 is 139.9 percent of the budget estimate and is higher than the corresponding figure of 128.4 percent in the previous year. The Revised Estimates place fiscal and revenue deficits at 9.5 percent of GDP and 7.5 percent of GDP respectively in 2020-21.

Banking and Non-Banking Sector

Bank credit growth was 6.1 percent as on December 18, 2020 as compared to 7.1 percent in the corresponding period of the previous year. The non-food credit growth (YoY) was 5.6 percent in October 2020, as compared with a growth of 8.3 percent in October 2019. The moderation in credit growth in 2020-21 was witnessed in mostly all the sectors, barring services.

Gross Non-Performing Advances (GNPA) ratio (i.e. GNPAs as a percentage of Gross Advances) of Scheduled Commercial Banks decreased from 8.2 percent at the end-March 2020 to 7.5 percent at end-September 2020. Restructured Standard Advances (RSA) ratio of Scheduled Commercial Banks (SCBs) increased from 0.36 percent to 0.41 percent during the same period. Overall, the Stressed Advances ratio of SCBs decreased from 8.6 percent at the end of March 2020 to 7.9 percent at end- September 2020. GNPA ratio of Public Sector Banks (PSBs) decreased from 10.25 percent at the end-March 2020 to 9.4 percent at the end-September 2020 and the Stressed Advances ratios decreased
from 10.75 percent at end-March 2020 to 9.96 percent at end-September 2020. However, this has to be seen in conjunction with the asset classification relief provided to borrowers on account of Covid-19.

Non-Banking Financial Sector

Total assets of NBFCs had increased from ₹23.41 lakh crore in March 2018 to ₹29.23 lakh crore in March 2019, and further to ₹33.91 lakh crore in March 2020, resulting in an annual growth of 16.01 percent during 2019-20 as compared with 24.86 percent in 2018-19. There is an observable shift in the sources of funding of NBFCs. Banks' total exposure to NBFCs increased from ₹7.01 lakh crores in March 2019 to ₹8.04 lakh crores in March 2020, and further to ₹8.17 lakh crores in June 2020.

Agriculture

In 2019-20 (as per Fourth Advance Estimates), total food grain production in the country is estimated at 296.65 million tonnes which is higher by 11.44 million tonnes than the production of food grain of 285.21 million tonnes during 2018-19. Rice production during 2019-20 is estimated at 118.4 million tonnes as compared to 116.5 million tonnes in 2018-19. Wheat production during 2019-20 is estimated at 107.6 million tonnes as compared to 103.6million tonnes during 2018-19. Government has increased Minimum Support Prices (MSP) for all mandated kharif, rabi and other commercial crops. The enhanced MSP ensures a return of 1.5 times overall India weighted average cost of production for the season 2020-21.

Milk production in the country has increased from 146.3 million tonnes (2014-15) to 198.4 million tonnes (2019-20). The per capita availability of milk is at 412 grams per day in (2019-20). The egg production in the country also increased from 103318 million 6 in 2018-19 to 114419 million in 2019-20. The fish production in India has reached an alltime high of 14.07 million metric tons during 2019-20. Overall, the Fisheries sector of India has sustained an impressive average annual growth rate of over 10 percent from 2014-15 to 2018-19.The agricultural credit flow target for the year 2019-20 was fixed at₹13,50,000 crore and against this target the achievement was ₹13,92,469.81 crore. The agriculture credit flow target for 2020-21 has been fixed at ₹15,00,000 crore and till 21st October, 2020 against this target a sum of ₹6,95,360.82 crore has been disbursed.

PAYMENT AND SETTLEMENT SYSTEMS IN INDIA: VISION – 2019-2021

1. FORWARDED

1.1 Payment and settlement systems are the backbone of any economy. The last decade has witnessed substantial developments in this area of activity across the country. The Reserve Bank of India (RBI), under powers from the Payment and Settlement Systems Act, 2007, has endeavoured to ensure that India has 'state-of-the-art' payment and settlement systems that are not just safe and secure, but are also efficient, fast and affordable. Efforts in this direction has yielded handsome results. The planned development of the payment systems has been guided by RBI's vision document for the payment and settlement systems in India which is being put out in the public domain since the year 2002; the last in this series was the Payment Systems Vision 2018. The current Vision document outlines the road map for the three-year period spanning from 2019 to 2021.

1.2 Some of the positive outcomes of the developments during the period 2015-2018 include ushering introduction of new and innovative systems, distinctive shift from paper to electronic payment modes, sizeable increase in transaction turnover, customer centric initiatives, international recognition, etc. Growth in electronic payments has been substantial with retail payments reflecting large growth in volume terms, while the Systemically Important Financial Market Infrastructures (SIFMIs), such as the Real Time Gross Settlement (RTGS) system and Financial Markets Clearing through Clearing Corporation of India Ltd. (CCIL), dominate in value terms.

1.3 New challenges have arisen requiring new strategies and planned efforts to address them. While building on the constructs and achievements of the previous Vision, the Payment Systems Vision 2021 recognises the need for continued emphasis on innovation, cyber security, financial inclusion, customer protection and competition.

2. EXPECTED OUTCOMES OF VISION 2021

2.1 The Payment Systems Vision 2021 covers the period up to December 2021.

2.2 Vision 2021 focuses on further enhancements / improvements in all facets of payment systems.

2.3 With concerted efforts and involvement of all stake holders, the four goal-posts of Vision 2021 with 36 specific action points over the 36-month timeframe will have the following 12 specific outcomes:

2.4The focus of the Reserve Bank through Vision 2021 is outlined in the subsequent sections. For better understanding and clarity of role, responsibilities and expectations, the identifiable stakeholders for achievement of the various objectives, are delineated in this document. The action points emphasising the four specific goal-posts are summarised in this table –

Unless stated otherwise, the financial data in this section is as per our Restated financial statements prepared in accordance with Accounting Standard set forth in the Draft Prospectus.

Our Business

Our Company was originally incorporated as Private Limited Company in the name of "Quadpro Eservices Private Limited" under the provisions of the Companies Act, 1956 vide Certificate of Incorporation dated November 03, 2010 issued by the Deputy Registrar of Companies, Karnataka. Subsequently, the name of our company was changed to Quadpro Ites Private Limited on March 24, 2021 with certificate of Incorporation pursuant to change of name issued by Registrar of Companies, Bangalore. Consequent up on the conversion of our Company into public limited company, the name of our Company was changed to "Quadpro Ites Limited" and fresh certificate of incorporation dated April 7, 2021 was issued by the Registrar of Companies, Bangalore.

This very fact awakened the coining of the name "Quad-Pro", signifying Four Professionals that infused their expertise, experience, skills, knowledge and connections to form an amalgamation of strategy, innovation, and efficiency with a clear focus to capture opportunities in the BFSI Industry. The company was Initially Incorporated with four promoters and directors on the board namely: S A Athavale, D K Chakravarthy, S Ramesh, and Nandira Biddappa Thimmaiah. The unanimity of the four professionals, subsequently enabled a meditative undertaking to consolidate the small entities that were steered by the promoter directors. This facilitated the congregation of a systematic blueprint to construct and present, well-organized, resourceful, applicable and economical services.

In 2020, the majority shareholder Scymes Services Pvt. Ltd. decided that they wanted to concentrate and build their own line of business and wished to sell out their stakes. Whereas, in the mean-time a company called Airan Limited (listed on NSE Limited) which is engaged in IT and ITeS Provider had been consolidating across India. They had been expanding the range and reach of their services by acquiring the businesses of their competitors through the means of mutual business-transfer agreements. The founder of Airan Limited, Mr. Sandeep Agrawal is a veteran in our line of business for 30+ years and has strategic relationships with banking, non-banking and financial institutions across and beyond India. While Mr. N B Thimmaiah was considering exploring a new and dynamic partner in propelling the already established Quadpro, Mr. Sandeep Agrawal on the other hand was on a consolidation drive of their competitors in India. Quadpro, being in the same segment as Airan Limited was also acknowledged by Mr. Sandeep Agrawal. Finally, the interests and goals of both Mr. N B Thimmaiah and Mr. Sandeep Agrawal aligned and they could see a bright future ahead and planned the growth story of Quadpro afresh. Hence, after careful due diligence Airan Limited acquired Quadpro in March 2021 and became its dominant stakeholder at 70%. As Quadpro became a part of Airan Group of Companies several processes are being extended to Quadpro as well including but not limited to the Biometric KYC activity for Kotak Mahindra Bank's online platform Kotak 811, E-KYC for Amazon Pay India and Loan Document collection and processing for Lending Kart India. CMS / CTS Processing:

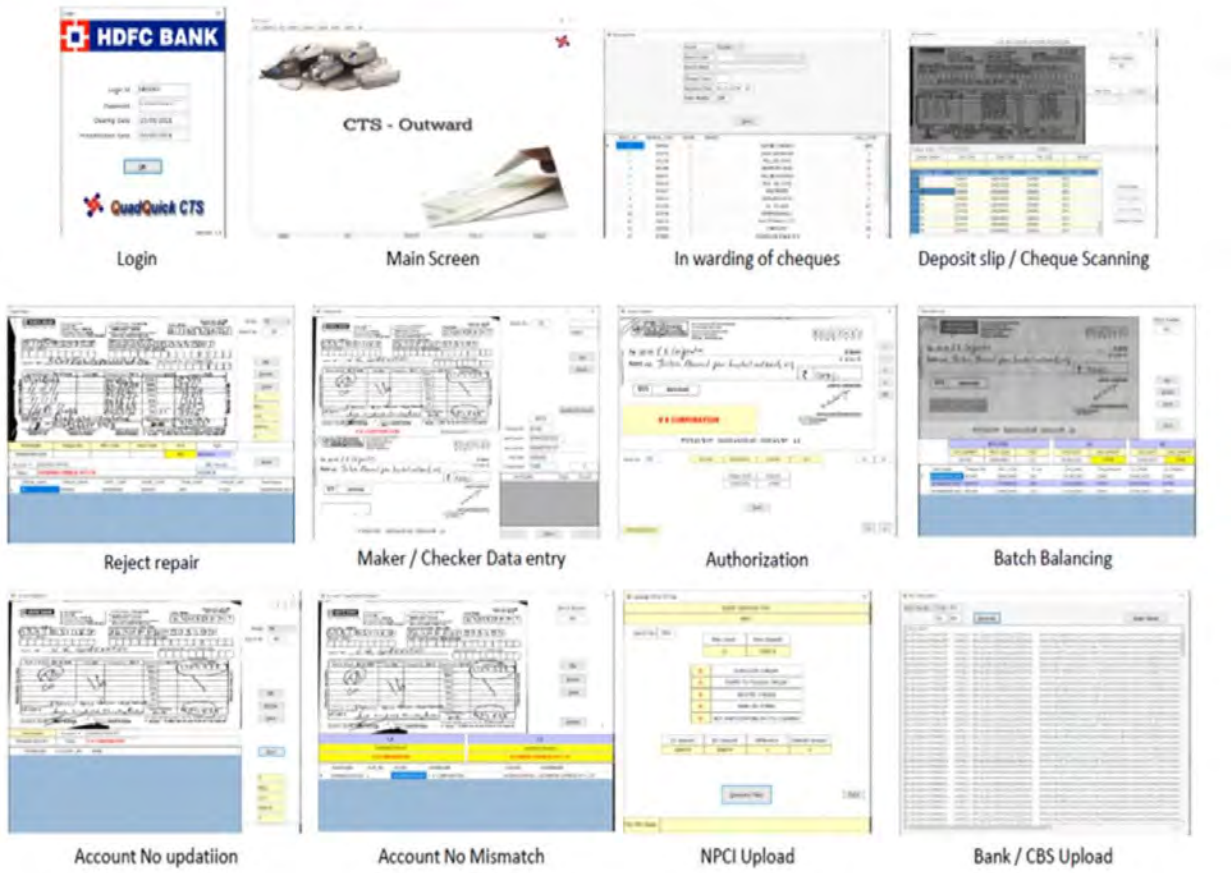
CTS/CMS PROCESS FLOW

CTS Process Flow



Truncation is the process of stopping the flow of the physical cheque issued by a drawer at some point by the presenting bank en-route to the paying bank branch. In its place an electronic image of the cheque is transmitted to the paying branch through the clearing house, along with relevant information like data on the MICR band, date of presentation, presenting bank, etc. Cheque truncation thus obviates the need to move the physical instruments across bank branches, other than in exceptional circumstances for clearing purposes. This effectively eliminates the associated cost of movement of the physical cheques, reduces the time required for their collection and brings elegance to the entire activity of cheque processing.

As explained above, Cheque Truncation speeds up the process of collection of cheques resulting in better service to customers, reduces the scope of loss of instruments in transit, lowers the cost of collection of cheques, and removes reconciliation-related and logistics-related problems, thus benefiting the system as a whole.

With the other major products being offered in the form of RTGS and NEFT, the Reserve Bank has created the capability to enable inter-bank and customer payments online and in near-real time. However, cheques continue to be the prominent mode of payments in the country. The Reserve Bank of India has therefore decided to focus on improving the efficiency of the cheque clearing cycle. Offering Cheque Truncation System (CTS) is a step in this direction.
In addition to operational efficiency, CTS offers several benefits to banks and customers, including human resource rationalisation, cost effectiveness, business process re-engineering, better service, adoption of latest technology, etc. CTS, thus, has emerged as an important efficiency enhancement initiative undertaken by the Reserve Bank of India in the Payments Systems arena.

CTS has been implemented in New Delhi, Chennai and Mumbai with effect from February 1, 2008, September 24, 2011 and April 27, 2013 respectively. After migration of the entire cheque volume from the MICR system to CTS, the traditional MICR-based cheque processing has been discontinued across the country.

The new approach envisioned as part of the national roll-out is the grid-based approach. Under this approach the entire cheque volume in the country which was earlier cleared through 66 MICR Cheque Processing locations is consolidated into the three grids in New Delhi, Chennai and Mumbai.

Even though Speed clearing hastens the process of cheque collection as compared to outstation cheque collection, it requires the presence of the paying bank branch in the clearing house location. In comparison, grid-based CTS, is a superior system as it encompasses a larger geographical area and the chances of paying banks not having presence in the grid location is seldom.

Under grid-based Cheque Truncation System clearing, all cheques drawn on bank branches falling within the grid jurisdiction are treated and cleared as local cheques. Cheque collection charges including Speed Clearing Charges should not be levied if the collecting bank and the paying bank are located within the jurisdiction of the same CTS grid even though they are located in different cities.

Each grid provides processing and clearing services to all the banks under its respective jurisdiction. Banks, branches and customers based at small / remote locations falling under the jurisdiction of a grid would be benefitted, irrespective of whether there exists at present a formal arrangement for cheque clearing or otherwise. The illustrative jurisdiction of the three grids is indicated below:

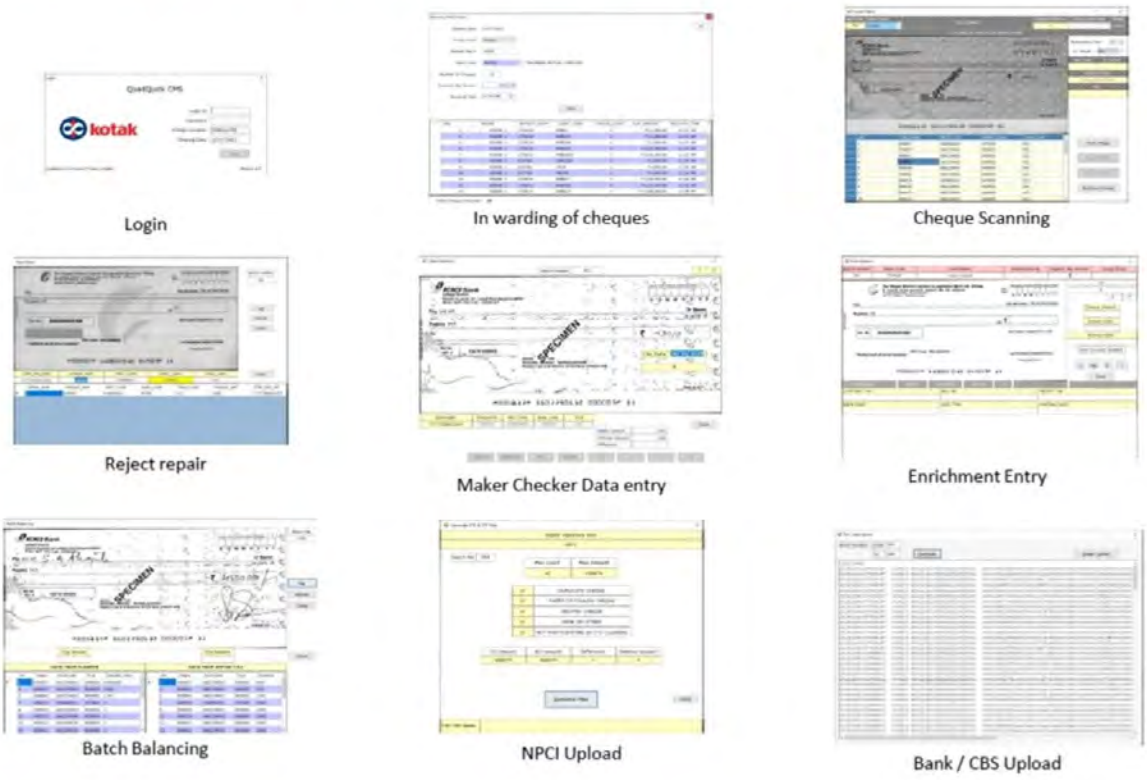
New Delhi Grid: National Capital Region of New Delhi, Haryana, Punjab, Uttar Pradesh, Uttarakhand, Bihar, Jharkhand, Rajasthan and the Union Territory of Chandigarh.

Mumbai Grid: Maharashtra, Goa, Gujarat, Madhya Pradesh and Chhattisgarh.

Chennai Grid: Andhra Pradesh, Telangana, Karnataka, Kerala, Tamil Nadu, Odisha, West Bengal, Assam and the Union Territory of Puducherry.

Quadpro ITeS initiates the CTS process on the field by the collection of physical financial instruments from the bank branch location or the bank's client's location. Once, the cheques are brought to the Quadpro processing centres, they are gone through a careful level of technical scrutiny where the authenticity of all the cheques is ensured, then they are segregated into batches to ensure easy delegation of work. Followed by the scanning of the cheques in batches via state-of-the-art cheque scanners that are deployed at Quadpro Cheque Processing Centres. Then the process of "Reject Repair" follows where any unclear or incomplete scan images of cheques are rejected and scanned again. Then based on the scanned image of the cheque, the data entry is done for each cheque in batches. This data entry is done on two levels i.e., Maker (D1) and Checker (D2) to avoid any mistakes and maintain utmost accuracy. Upon the completion of data-entry the details of each batch are balanced and authorised. Once the authorisation is done, the batches are ready to be pushed to NPCI (National Payments Corporation of India) via the Clearing House Interface (CHI), both the data file in .xml format from the data entry as well as the scan images of the cheques in .tiff format are pushed to NPCI and are held with them. Throughout the process, the data travels through the Secured File Transfer Protocol (SFTP) eradicating the possibility of any data leakages or loss of data.

CMS / CTS Process Flow



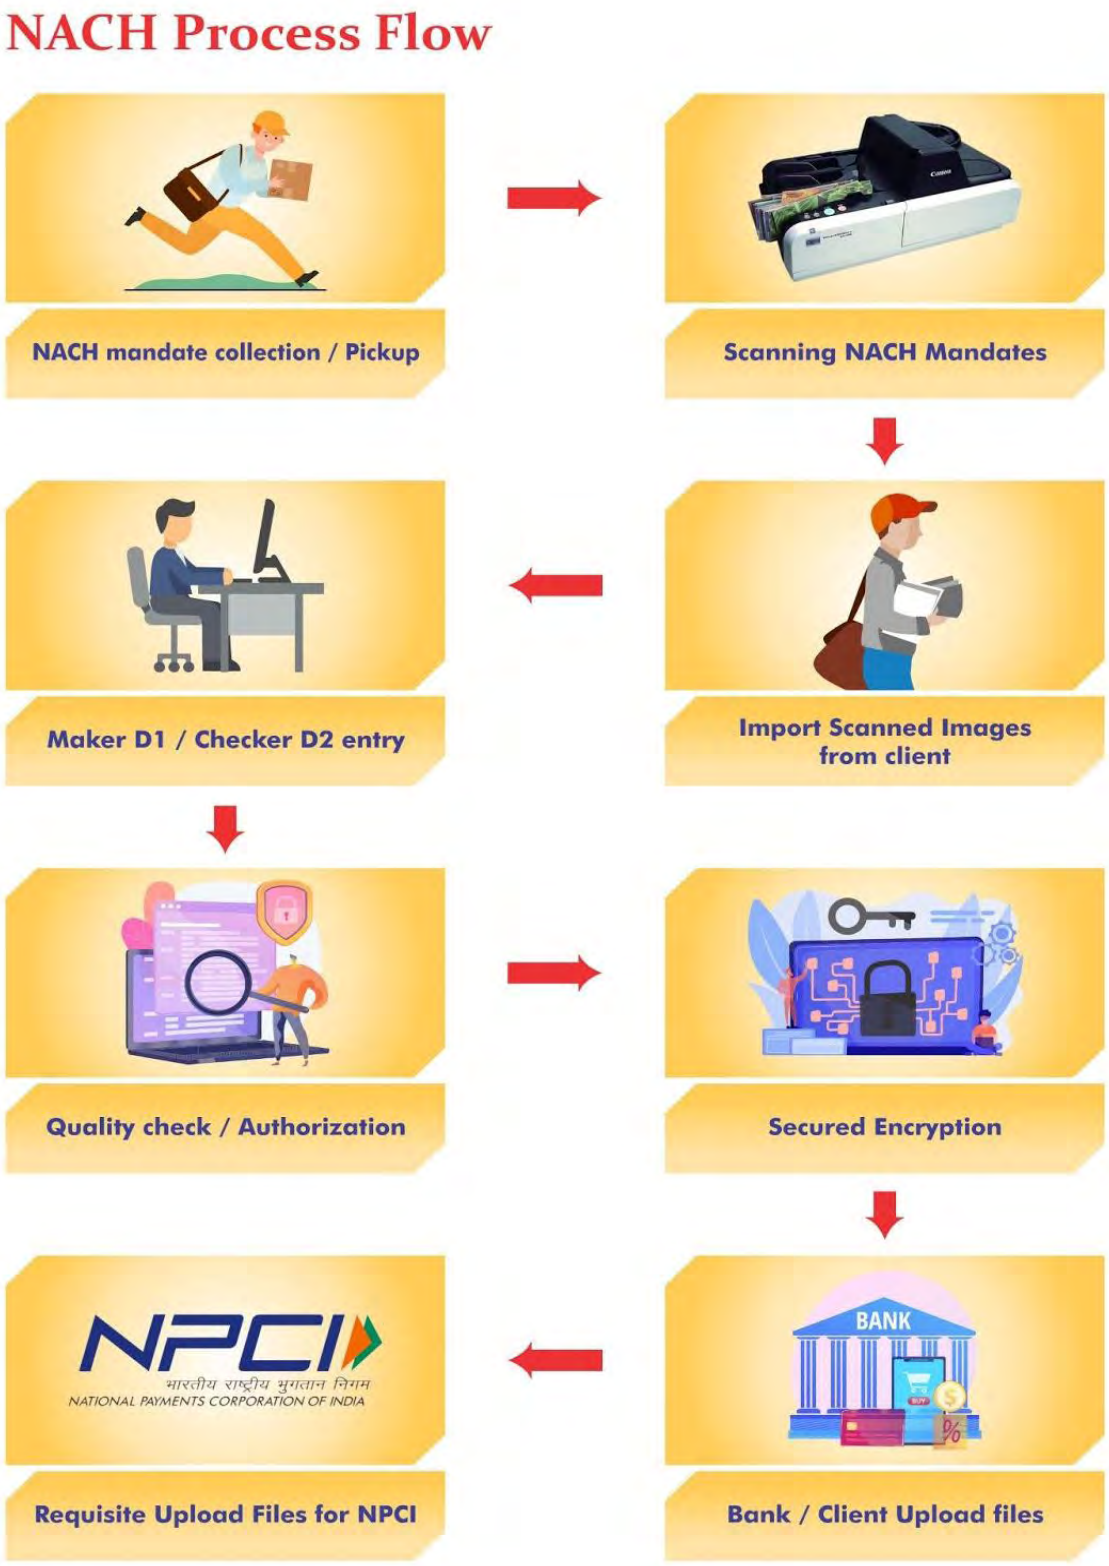
The process flow of CMS is similar to the CTS process. However, the additional information also known as enrichments that need to be captured are prescribed the bank's CMS clients. Quadpro captures any additional information required by the bank or the bank's clients and accommodates this additional step into the process flow of CTS. Furthermore, Quadpro also provides tailor-made and customised MIS to the Bank as well as the CMS file that is further sent to the end-client.

Quadpro ITeS provides Cash Management Services (CMS) to multiple Banks across India.

Quadpro holds the competitive advantage and is the preferred partner for banks for the CMS activities in regards to the following characteristics:

- Leverage of a vast network of locations within India.
- Wide range of CMS products.
- Efficient logistics support and advanced technology support.
- Ensuring timely deposit of collections and timely execution of disbursement requests.

NACH (National Automated Clearing House) Mandates Processing:

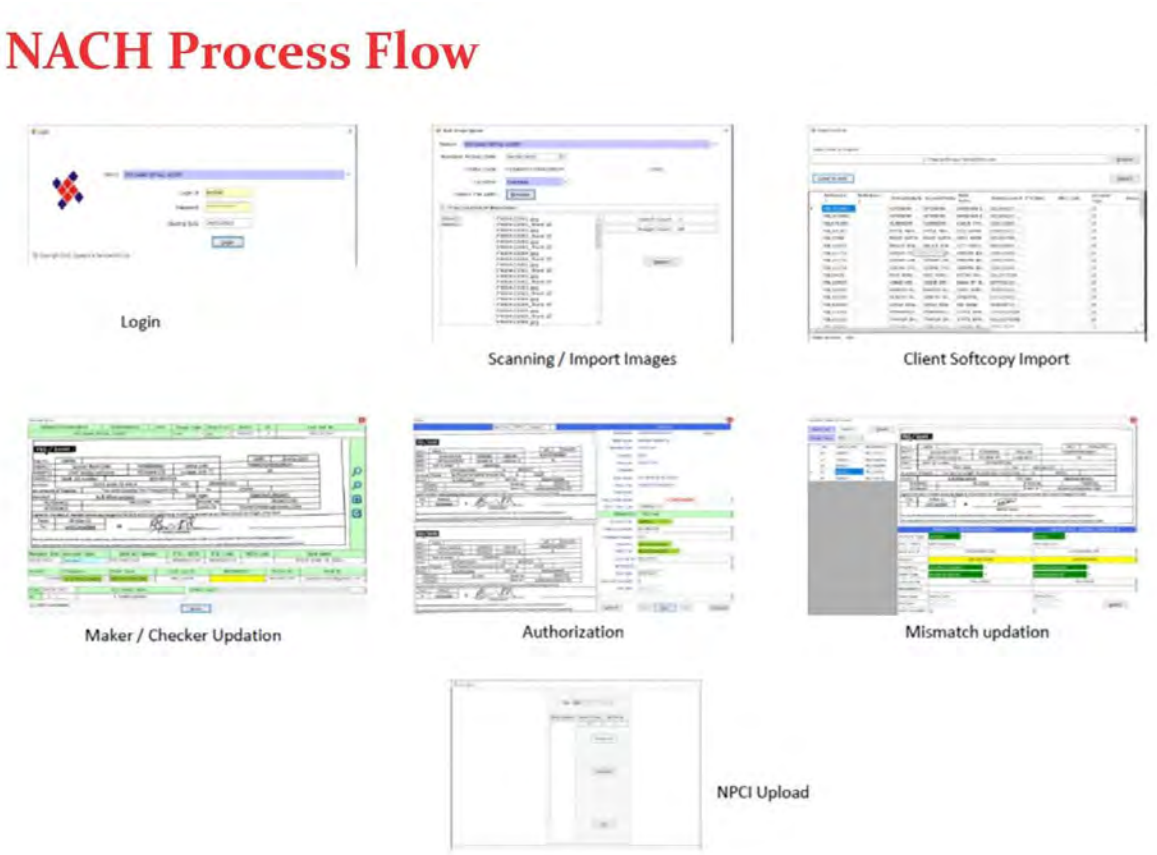


The Indian payment industry enters the next level with National Automated Clearing House (NACH). Started by the National Payments Corporation of India (NPCI), NACH aims to create a better option for facilitating clearing services than the existing Electronic Clearing Service (ECS) system. NACH is a centralised, web-based clearing service that can ease the work of banks, financial institutions, the government and corporates by consolidating all regional ECS systems into one national payment system, thereby removing any geographical barriers in efficient banking.

NACH provides a variety of facilities that include standardising and digitising the mandates, simplifying them, reduction of the activation time and reducing the cost of operation. The process of activation of ECS mandates had a longer turnaround time (30 days) than what it is expected to be in NACH (10 days). Also, the Aadhar-based benefit transfers have been simplified.

For customers, this means payments of premiums, bills and loan instalments etc. on time every month or specified time period. Banks, on the other hand, save time and minimise their dependencies on cheques or other such paper-based transactions. Large organisations stand to gain as they can provide better customer service by disbursing bill clearances, salaries and pensions on time without having to undergo numerous steps. Also, organisations can take advantage of automatic crediting of allowance benefits or scholarships etc. For them, also, the paper-based transactions are reduced, thus facilitating their other work.

NACH is a one-time registration process, like ECS, that provides flexibility to investors who can make a single payment for any lump-sum investment or through Systematic Investment Plan (SIP). However, the time taken for the registration process is said to have been reduced in NACH. The registration process itself has not changed; the only thing you need to do is collect the NACH form instead of the older ECS form.



NACH has been set up to serve as a faster and efficient platform for payments clearance. NACH is an automated debiting mandate issued by the customer, instructing his banker to debit his account to the presentation bank. This process is cost-effective and easy way of making payments.

Quadpro has been on the front line of NACH Processing by developing an in-house application called “QUADQUICK NACH” which has been widely used for more than 150 clients’ requirements by Yes Bank. Life Insurance Corporation of India is one of the biggest clients of Yes Bank whose mandates range from 25 Divisions. Specifically, there are 13 divisions from the Southern Divisional Offices and 12 divisions from North Eastern Divisional Offices.

The process of mandate management carried out by Quadpro initiates with the receiving of physical copies of NACH Mandates by the bank from its customers at their respective central office. These mandates are dispatched and received on the same day to the Quadpro Hub Location. The count of mandates is verified with the bank upon the receipt of the

mandates to identify any inconsistencies straight away, the authenticity of the mandates is also ensured by a unique processing number stamp and only after this the receipt of the mandates is confirmed. Upon conducting initial scrutiny, any incomplete/inauthentic mandates are rejected and returned to the bank and thereafter the scanning of the mandates takes place as per the specification of NPCI and the requirements of the bank. While doing the data entry, utmost accuracy and hygiene needs to be maintained. Similar to CTS, the data is only transferred through SFTP. The bank then uploads the scanned mandates within the NPCI cut-off time after processing it in our internal system. The response file is shared to the bank after updating the status for each mandate. Quadpro creates customised weekly MIS and shares to the bank based on the client wise and consolidated number of mandates processed along with the updated status. Quadpro has a Turn-Around-Time of one day for this activity.

Doorstep Banking services: Last mile Cheques & Cash logistics

Software Development Services: In-house Software & Application Development.

On growing demand and requirement from the clients, Quadpro started working on developing an art of technology which should make clients process user-friendly, thus giving the road map to design and develop in-house software application for CTS and CMS activity. "QUADQUICK" software application was made on Microsoft Visual Basic platform. The robust and most reliable, user-friendly application was well accepted and adopted by Quadpro clients.

There are regulators with local and global authority established to ensure financial systems' stability and prevent financial crimes. Various financial crimes are committed every year in the world. Regulators aim to prevent financial crimes by regulations and laws. Regulations require companies first to KYC check your customers during the onboarding process and then follow their financial transactions. Companies that meet this Know Your Customer (KYC) requirement ensure compliance. Regulators fine financial institutions if they do not meet their Know Your Clients requirements. Hence, most of our clients being Banks and Financial Institutions are subject to conduct KYC during their customer onboarding process.

Quadpro ITeS provides services to execute various types of KYC like Digital KYC, Physical KYC, Biometric KYC etc.

Digital KYC requires the inspection of the identity documents of the customer along with their basic details. Physical KYC involves the physical verification of the customer’s address and identity proofs. Whereas, Biometric KYC involves the scanning of the customer’s biometrics (Thumbprint) physically at the customer’s location and verifying the identity with their biometric records submitted in Unique Identification Authority of India (UIDAI) at the time of applying for Aadhaar Card.

The process is: The physical files are viewed, de-pin the physical documents, segregate them as per pre-sanction/post-sanction/KYC documents/general documents. Post completion, the reverse process of filing of documents back to the physical file under the bank's supervision shall be performed.

Upgradation of data to newer versions is inevitable. Quadpro assists their clients on migration of data using "ETL Process" (Extract, Transfer, Load) to the database server. Any business implementing new data technology needs a professional, comprehensive data migration that incorporates quality control, consistency, governance and improvement. If any of these key steps are missed in a data changeover, then the new technology won't be able to fulfil the expectations from it.

System Integration Services

Quadpro provides the service of system integration to Primary Land Development Bank (PLDB) who works with PACS. A Primary Agricultural Credit Society (PACS) is a basic unit and smallest co-operative credit institution in India. It works on the grassroots level (gram panchayat and village level). It is the basic unit organized at the village's grass-root level with the main role of dealing with agricultural borrowers of the village by giving agricultural, short-term, and medium-term purpose loans to the borrowers then collecting the repayments against those loans. They act as a link between the country's higher financial agencies who can resolve various issues of the members and the ultimate borrowers. It is an important role because it is very difficult for the farmers to directly approach the higher financial agencies for their problems, and thus, PACS helps them in that matter. SWOT ANALYSIS

BUSINESS STRATEGY

1. **Transforming Challenges into Opportunities:**

We at Quadpro ITeS Limited, understand that being in the IT and ITES industry, our company can encounter a wide variety of risks and challenges in our endeavour to create and maintain a seamless, successful, sustainable and scalable business. But we believe that the ultimate risk is to not take a risk. It is necessary to accept challenges as people cannot be visible in a society or famous in an industry circle without conquering challenges and transforming challenges into opportunities. We take the example of Microsoft. What would have happened to Microsoft if Gates did not take the challenge of continuing DOS even though IBM rejected his offer of buying DOS. We have confidence that there are millions of challenges transformed into great life time opportunities. Therefore undoubtedly "accepting challenges" are necessary.

Some of the challenges, which we have identified as opportunities, include:

1. Ability to create and maintain a truly world class proven global delivery model which would allow our organization to provide services to customers on a best shore basis. This would require round the clock execution capabilities across multiple time zones, access to a large pool of highly skilled technology professionals and a knowledge management system to reuse solutions where appropriate.
2. Develop and expand strong, comprehensive, best in class end-to-end solutions and service offerings in order to help our clients gain market differentiation or competitive advantage and thus capture a greater share of our client's technology budgets.

3. Ability to scale when the opportunity arises. This would require constant investment in infrastructure and rapidly recruit, train and deploy new professionals.

4. Manage revenue and expenses during unprecedented pandemic and economic downturn, enhance our organization's capacity to withstand pricing pressures, commoditization of services and decreased utilization rates.

5. Expand our client list across business verticals to reduce over dependency and risk of losing substantial market share.

6. Maintain superior and sophisticated project management methodology in line with global quality standards and ensure timely, consistent and accurate execution to achieve highest client satisfaction.

7. Ensuring successful integration of inorganic growth opportunities that our organization intends to undertake from time to time across several geographies.

2. Harnessing the direct and indirect benefits of ITeS:

1. Increasing Flexibility:

Flexibility is one of the stages of the organizational life cycle. Several of the services provided by Quadpro ITeS are offered on a fee-for-service basis. This helps our clients to change their structure of cost from Fixed to Variable cost. A variable cost helps a company to respond to changes very quickly and make the firm more flexible through outsourcing.
We contribute to our client's flexibility is that our clients focus on their core competencies, without any burdens from bureaucratic restraints. This way, their main employees are released from performing non-core operations or administrative processes and can spend more time and energy in building their main businesses.

We increase organizational flexibility by increasing the speed of business processes. Using techniques such as linear programming we can decrease the production time and inventory levels, which can increase effectiveness and decrease costs. Supply chain management (SCM) with the effective use of chain partners and business process outsourcing increases the speed of several business processes.

2. Developing Scalability:

Scalability and seamless integration are crucial factors of the ITeS segment. Quadpro ITeS have matched and benchmark the business and technological needs of countries globally, such that, our clients no longer feel the distance, technical superiority, and cultural diversities in operations. No other country in the world has the content of software enabled services and software development as demonstrated in India. Besides, the development of information technology, information technology enabled services, e-commerce, and the World Wide Web have positioned India as a major destination for software enabled services and software development services.

Quadpro ITeS is determined to acquire greater efficiencies and economies of scale our single focus is on Information Technology Infrastructure. We consolidate the purchasing power and have access to deep and broad knowledge bases across various services. Therefore, we intend to make efforts toward delivering better, faster and cheaper technology solutions and services. Using developed best practices, we simply complete tasks far more efficiently, often to an order of magnitude greater, than small businesses can do on their own. All this translates into real cost savings in terms of both time and money.

3. Policy Initiatives:

The Government of India recognises ITES-BPO as a major thrust area and provides incentives to industry players. Contact centres approval is not required to be customer-based but specific to a place of presence (PoP), or by installed capacity at the place of termination. This not only assists in reducing the lead-time for implementation of programmes for new customers but also adds to the savings in costs and time that can be channelised for more productive usage Approved Internet and IPLC connectivity on the same LAN. Allowed connectivity of a LAN in an international call centre to a domestic ISP. This enables a call centre operator to choose his service provider.

The Government of India has allowed total income tax exemption on export of IT enabled outsourcing services (Sections 10A/10B of the Income Tax Act). These cover a wide range of services such as customer interaction services, BPO/Back-office operations, digital content development, support centres, payroll/HR services, web-site services, and data digitisation/GIS.

4. Time Zone Advantages:

Quadpro ITeS is headquartered at Bangalore, India. India has an 8–12-hour time zone difference with respect to the US and other developed markets. It is of great advantage in BPO operations, which offers reduced turnaround times, since processing services are performed at night hours in the developed countries. We are able to offer 24x7 services and reduction in turnaround times by leveraging time zone differences while operating in India. This difference in time zone is because of India's unique geographic location. When it is day in India, it is night in America and even as we go to bed, they rise and go to work. We at Quadpro aspire to intelligently bring this time difference to our advantage for various processes. The time zone difference also helps in sharing of resources which, in turn, saves costs and also contributes to better revenues.

5. Access to excellent resource pool:

India has a strong mix of young and technically trained professionals. Government institutes such as the Indian Institute of Technology (IIT), the Indian Institute of Management (IIM), and the Indian School of Business (ISB) are known to produce high quality STEM (science, technology, engineering, and math) talent with diverse business skills. The already proficient team of Quadpro ITeS can be further specialised as per project-based requirements or expert knowledge and professional training.

The professionals in the resource pool can not only offer wage arbitrage to our company, but also enable the industry to address growing domestic and global opportunities in digital transformation, while maintaining high productivity rates. In the year 2016, over six million graduates were estimated to have been added to India’s total labour force, over half of whom have skill sets that are well suited to the IT and ITeS sector.

The Specific Relief Act, 1963

The Specific Relief Act, 1963 is complimentary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. The Employees State Insurance Act, 1948

The promulgation of Employees' State Insurance Act, 1948(ESI Act), by the Parliament was the first major legislation on social Security for workers in independent India. It was a time when the industry was still in a nascent stage and the country was heavily dependent on an assortment of imported goods from the developed or fast developing countries. The deployment of manpower in manufacturing processes was limited to a few select industries such as jute, textile, chemicals etc. The legislation on creation and development of a fool proof multi- dimensional Social Security system, when the country's economy was in a very fledgling state was obviously a remarkable gesture towards the socio economic amelioration of a workface though limited in number and geographic distribution. India, notwithstanding, thus, took the lead in providing organized social protection to the working class through statutory provisions. The ESI Act 1948 encompasses certain health related eventualities that the workers are generally exposed to; such as sickness, maternity, temporary or permanent disablement, Occupational disease or death due to employment injury, resulting in loss of wages or earning capacity-total or partial. Social security provision made in the Act to counterbalance or negate the resulting physical or financial distress in such contingencies, are thus, aimed at upholding human dignity in times of crises through protection from deprivation, destitution and social degradation while enabling the society the retention and continuity of a socially useful and productive manpower.

HISTORY AND CERTAIN CORPORATE MATTERS

COMPANY'S BACKGROUND

Our Company was originally incorporated as Private Limited Company in the name of "Quadpro Eservices Private Limited" under the provisions of the Companies Act, 1956 vide Certificate of Incorporation dated November 03, 2010 issued by the Deputy Registrar of Companies, Karnataka. Subsequently, the name of our company was changed to Quadpro Ites Private Limited on March 24, 2021 with certificate of Incorporation pursuant to change of name issued by Registrar of Companies, Bangalore. Consequent up on the conversion of our Company into public limited company, the name of our Company was changed to "Quadpro Ites Limited" and fresh certificate of incorporation dated April 7, 2021 was issued by the Registrar of Companies, Bangalore.

This very fact awakened the coining of the name "Quad-Pro", signifying Four Professionals that infused their expertise, experience, skills, knowledge and connections to form an amalgamation of strategy, innovation, and efficiency with a clear focus to capture opportunities in the BFSI Industry. The company was Initially Incorporated with four promoters and directors on the board namely: S A Athavale, D K Chakravarthy, S Ramesh, and Nandira Biddappa Thimmaiah. The unanimity of the four professionals, subsequently enabled a meditative undertaking to consolidate the small entities that were steered by the promoter directors. This facilitated the congregation of a systematic blueprint to construct and present, well-organized, resourceful, applicable and economical services.

The formal incorporation of the company was on 3rd November, 2010, whereas the vision and aspiration behind the company originates from 1990 when one of the "Quad Professionals" and the founding Managing Director Mr. S.A. Athavale started a business in Bangalore, Karnataka to provide logistics and support services to Citibank. M/s. Citibank N.A., an American bank began its operations in India over a century ago in 1902 in Kolkata and today is a significant foreign investor in the Indian financial market. As promoter-shareholder, Citi has played a role in establishing important market intermediaries such as depositories, credit bureau, clearing and payment institutions.

The new policy shook the Banking sector in India completely. Bankers, till this time, were used to the 4–6–4 method (borrow at 4%; lend at 6%; go home at 4) of functioning. The new wave ushered in a modern outlook and tech-savvy methods of working for traditional banks. All this led to the retail boom in India. People demanded more from their banks and received more. Now, with the retail boom in India, opportunities rose to a great extent for outsourcing of back-end processes. Once the economy of India was liberalized, Citibank started expanding their branch network from the existing four metro cities to various cities in India like Bangalore, Hyderabad, Cochin, Ahmedabad, Pune etc. Citibank pioneered the ITES industry in financial services through Citigroup Global Services Ltd. (CGSL). Citibank established the Cash Management Services (CMS) activity for Indian Corporate companies and the entity run by Mr. Athavale, was the first pilot experiment of outsourcing logistics and service support in India. The process involved then was to provide fundamental logistics support for their Exclusive Corporate Clients in Bangalore City.

By this time in the late 1990s, Mr. Athavale started providing further support services to Citibank for their Door-Step Banking Services by executing Cheque Pickup, to bring convenient banking to their CMS and Retail Clients. Another service provided at this time was Transaction Processing for the on-line processing of information in discrete units, with assurance of the state of the information at the end of the transaction. These services were provided to Citibank for the majority of their branches in the nation at that time. Mr. Athavale had a team of about 20 people and the then entity was known as Samarth Financial Services (SFS). Apart from the transaction processing, SFS also used to process IPO applications through computerised listing with 100% reconciliation, dividend warrants listing and reconciliation, refund orders listing and reconciliation.

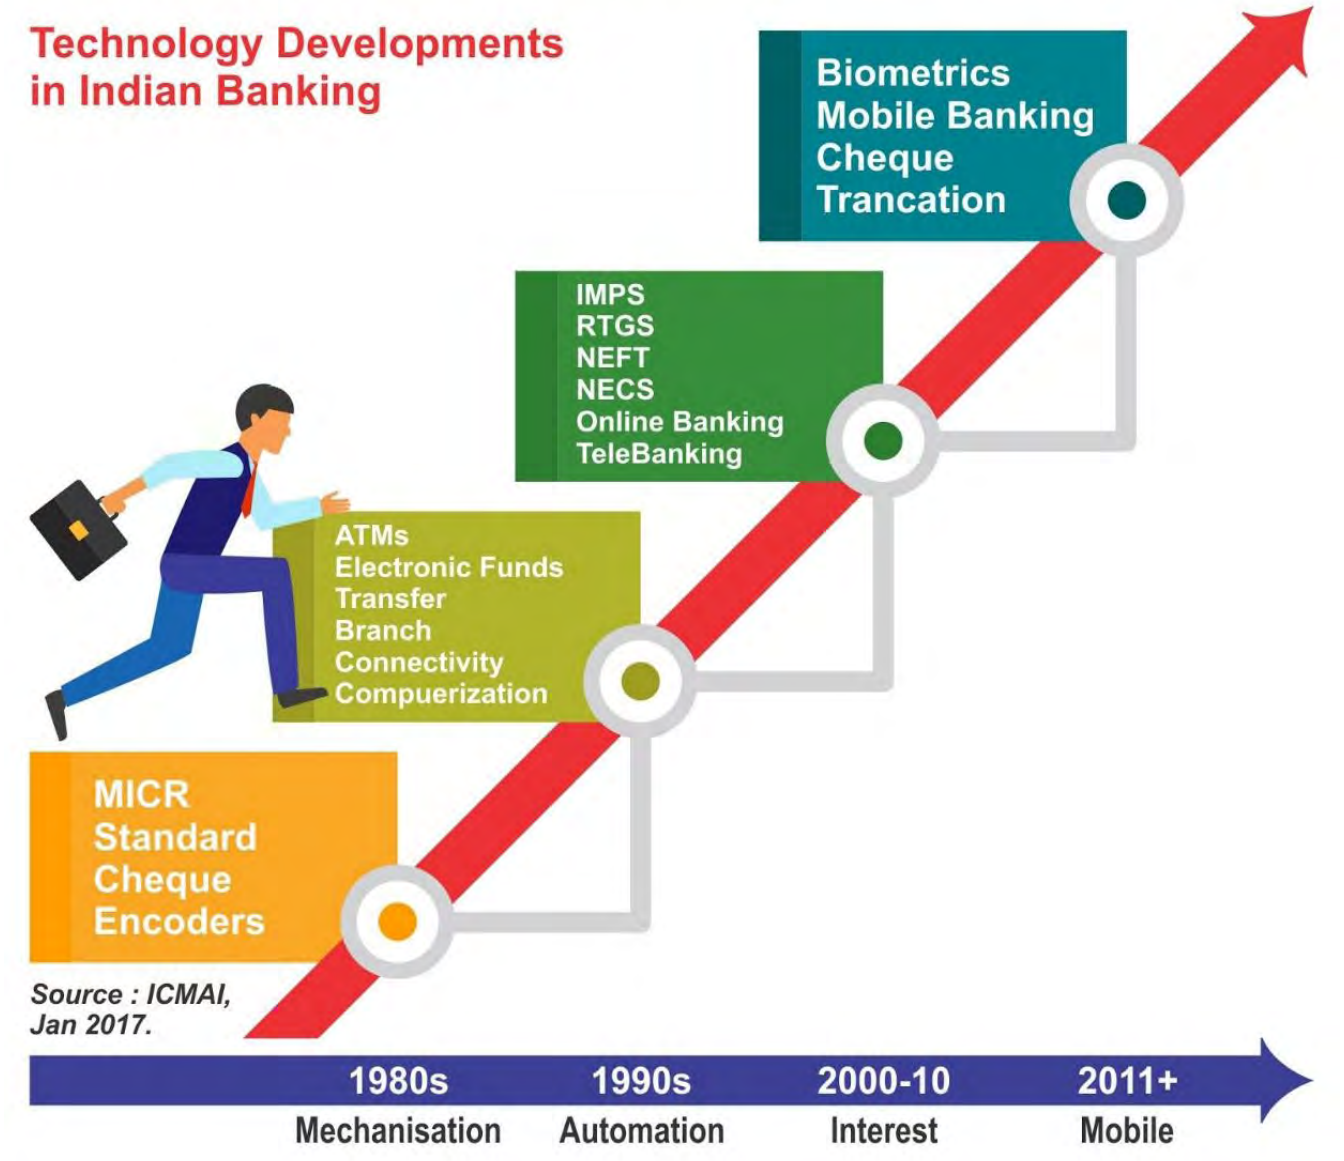
The banking in India during this time was at a nascent stage and it moved from manual clearing system to MICR clearing around year 2000. During this time of transition, SFS started providing MICR encoding services to not only Citibank but other banks like Standard Chartered Bank, Grindlay's Bank etc. For the first 2 decades i.e., 1990 to 2010, the growth of SFS was gradual. Then in 2008, the global financial crisis hit the US economy in 2008, which soon converted itself into a global economic slowdown, named the Great Recession, both the trade and capital flows were affected. Financial Instability, Banking Stress and Inflation ensued. Then in 2010, when the world was recovering from The Great Recession and India's Economy was speeding up along with stimulus packages from governments and substantial foreign investments, the need of a pervasive corporate company with a Pan-India presence to provide logistics and process support was immensely felt and Quadpro E Services was born by consolidating and merging of small entities run by the founding directors of Quadpro E Services Private Limited, i.e., Mr S A Athavale, and Mr. Nandira Biddappa Thimmaiah.

Mr. Nandira Biddappa Thimmaiah's entity was based in Mysore providing support services to banks and financial institutions in India and with the incorporation of Quadpro, Mr. Nandira Biddappa Thimmaiah has moved base Quadpro's Head Office in Bangalore. Mr. Nandira Biddappa Thimmaiah has been the instrumental force in setting up the network of branches and associate partners in the entire southern region of India for Quadpro ITeS Limited. He conducted

periodical and consistent market research in order to identify the best opportunities which could be seized with the resources of Quadpro, this enabled the addition of new services to the mix. Upon conducting market segmentation analysis, Mr. Nandira Biddappa Thimmaiah was able to penetrate deeper into the customer base of Quadpro as well as acquire new clients by analysing their profitability and allocating new and improved marketing and delivery channels. During this time various processes and business from other competitors was transferred to Quadpro. As the credibility of Quadpro grew from the ground level, it started expanding into different geographical territories. Geographic expansion helped Quadpro to gain access into new markets and talent pools, which greatly reduced costs and most importantly built a robust pipeline to fuel the company's future growth. A large number of new clients were acquired around this time as well as existing relationships were intensified. The connections and dealings of Quadpro grew by getting into contact with people that shared Mr. Nandira Biddappa Thimmaiah experience and various new businesses started during this time.

As the year 2011 commenced, Magnetic Ink Character Recognition (MICR) - Clearing system was prominent across various centres across India, and our company Quadpro developed an in-house software application called "QUAD QUICK" to provide Cheque Processing Activity via MICR for ICICI Bank. Furthermore, Quadpro also became the partner for ICICI Bank for their Branch Cheque Pickup activity in Bangalore. In early 2011, Bharti Airtel Limited launched their 3G services in India along with numerous attractive plans offers, which boosted the customer base of Airtel. ICICI Bank procured the opportunity of being the banking partner of Airtel. Consecutively, Quadpro was awarded the mandate of collection and processing for Airtel via ICICI Bank in the entire Tamil Nadu state and Pondicherry region. The process involved clearing of cheques from the Airtel Drop boxes, followed by the processing of those cheques in our in-house developed application and finally the deposition of the said cheques into the bank branches. The Turn-Around

Snapshot of Technology Developments in the Indian Banking Sector:



Time (TAT) of this entire activity was less than 24 hours. The cheques were collected and processed on Day-0 and then deposited on Day-1.

It is important to understand our most valuable customers as it helps focus our efforts to increase sales, however diversification is an equally important aspect. Quadpro diversified its customer base and expanded into a new sector, namely the Healthcare Sector as well as the Insurance Sector. Through the development of fresh strategic partnerships and network, Quadpro got associated with healthcare companies. It is among the nation's providers of Third-Party Administration (TPA) Service for health insurance. Quadpro was the authorised partner for dispatch activity of Customer Health Cards. The process involved the collection of pre-printed health cards from Vidal Healthcare Private Limited, followed by bringing the health card to our hub processing centre, modifying them precisely into the prescribed measurement requirements of the client, laminating them into cards, packing them and finally dispatching the same to the customer.

By the year 2012, India reached a revolution that redefined human life in a radically new way, namely the IT revolution. With the widespread adoption of 3G, internet connectivity started reaching the majority of the Indian population. The IT revolution started to grow in a flash and new-fangled technologies opened up a host of other exciting possibilities. In light of this revolution, The Reserve Bank of India (RBI) launched the implementation of the Cheque Truncation System (CTS). Truncation is defined as the process of stopping the flow of the physical cheque issued by a drawer at some point by the presenting bank en-route to the paying bank branch. In its place an electronic image of the cheque is transmitted to the paying branch through the clearing house, along with relevant information like data on the MICR band, date of presentation, presenting bank, etc. Cheque truncation thus obviates the need to move the physical instruments across bank branches, other than in exceptional circumstances for clearing purposes. This technology came with its advantages as it sped up the process of collection of cheques resulting in better service to customers, reduced the scope of loss of instruments in transit, lowered the cost of collection of cheques, and removed reconciliation-related and logistics-related problems, thus benefiting the system as a whole. Quadpro recognized the relevance of IT products and services and expanded its IT team to work on a project of developing its own proprietary product for serving CTS. Once the project was completed, a new software QuadQuick was invented. This project was aimed at Small and Medium sized Banks.

During the period of 2012 to 2016, Quadpro expanded its horizons to various other territories of Southern India while also covering major cities like Hyderabad, Chennai, Cochin, Mangalore and Mysore. Quadpro expanded its presence by opening offices in Chennai, Hyderabad and Cochin with multiple seating capacity.

By the year 2013, Quadpro established a network of over 300 partners in the 4 southern states of India namely Karnataka, Andhra Pradesh, Tamil Nadu and Kerala. Among other services, this network was developed to provide Cash Management Support Services to numerous esteemed institutions in the BFSI segment, like ICICI Bank, Yes Bank, Kotak Mahindra Bank, ING Vysya Bank, Deutsche Bank and Royal Bank of Scotland. During this time, Quadpro was also awarded the CMS processing for Telecom and Credit Card Pre-Payment Process for the entire states of Karnataka, Kerala as well as for the Mumbai City for Citibank. The process included Dropbox Cheque clearance, Cheque Processing and Cheque Deposition.

Quadpro had been strategically promoting its ultramodern CTS software Quad Quick. As the product was one of its kind, it was appreciated by a number of banks. Hence, the aforementioned consortium of banks appointed Quadpro for end-to-end CTS Clearing as well as for logistical services.

In the face of increased competition for attention on digital channels, technology companies in the B2B sector struggled to reach the right decision makers in banks to increase their sales funnels. The ability to connect with these decision makers regarding the contemporary subject of CTS could have a dramatic impact on the success of Quad Quick. Quadpro predicted this and maximised its marketing initiatives by coming-up with a strategy that would have the most potential to engage decision makers by demonstrating that they understood the challenges faced by bankers wherein they had to deal with multiple vendors for multiple services. Hence, Quadpro became a unique solution where it signed a National Partnership Agreement for both sales and service with Burroughs Inc. USA for promoting their CTS Cheque Scanners. Now, the avenues to publicise Quad Quick CTS Software amplified as we were providing both specialised hardware as well as software. This fuelled the nation-wide marketing drive of Quadpro and made its national presence inevitable, over in Bangalore, Quadpro concurrently won the mandate for deploying Quad Quick for providing CTS Clearing services to another consortium of Co-Operative Banks.

In the year 2017, two of the Founder directors viz. D K Chakravarthy and S Ramesh departed from the company. Later in 2017, Quadpro set foot in the city of Mumbai by setting-up a remarkable office with fully-equipped seats, advanced network infrastructure and in-house data centre. The workstations were utilised to provide pre-payment processing services for Telecom companies like Vodafone and Airtel as well as Citi Credit-Card through the mandate awarded by Citibank. Furthermore, Quadpro started the CMS Cheque Processing activity for Kotak Mahindra Bank and Yes Bank for Mumbai and multiple Southern States.

During the year 2018, another feather was added in Quadpro's Cap. A new business was signed with Federal Bank Limited to cater their CMS and Logistics activities in South India as well as Mumbai City. The process involved collecting the cheques from their branches in Mumbai, Bangalore and Chennai and bringing them to the Processing-Hub of Quadpro at these three cities respectively for processing. The cheques would then go under technical scrutiny. This technical scrutiny was performed via a new method, namely the four eyes method where each unique information on the four corners of the cheque would be examined. The cheques would then be processed and the data file and image file would be uploaded to their CTS application through a Secured File Transfer Protocol (SFTP).

The landmark opportunity was achieved by Quadpro when we were awarded the RFP (Request for Proposal) from Bank of Baroda for being their exclusive partner for Door-Step Banking Services (DSBS), Cash Management Services (CMS) and allied services for their southern grid operations. During this time, Quadpro acquired another NACH Mandate Processing assignment from an NBFC (Non-Banking Financial Corporation) in Bangalore named Capital Float. NBFCs had come a long way in terms of their scale and diversity of operations and were beginning to play a critical role in financial intermediation and promoting inclusive growth by providing last-mile access of financial services to meet the diversified financial needs of less-banked customers. The sector also showcased examples of many non-traditional players leveraging technology to adopt tech-based innovative business models. Quadpro apprehended the advent and the influence of NBFCs in India and apart from Mandate Pickup and Processing, Quadpro also provided a facility of Storage for such processed Mandates to the NBFC.

Simultaneously in late 2018, ICICI Bank made the decision to move away from the decentralised module of CTS CMS Clearing Process to a Centralised module in Karnataka and Kerala state. Quadpro's Head Office is one of the centres where the centralised CTS CMS Clearing Process takes place. In this process, the infrastructure is as per the bank's standards and even the internet lease-line is provided by the bank 1:1 for logging into their server for processing of Cheques. By the year 2018/2019, Quadpro was handling over 50 Million transactions per annum and providing services to multiple Nationalised Banks, Leading Private Banks, Multinational Foreign Banks and Co-operative banks all over India.

Quadpro's Management team had a dream of driving existing business and bringing in a new dimension to the growth of the company. Looking at the previous endeavours of Mr. N B Thimmaiah and his tireless striving towards making Quadpro one of India's leading ITeS Company, the management team took a unanimous call in a Board Meeting to appoint Mr. N B Thimmaiah who was formerly Director/Co-Founder as the new Managing Director of the company w.e.f. 2nd April, 2018. Mr. Thimmaiah, being a young entrepreneur and well acquainted with BFSI clients, was the most suitable person to take charge of the legacy of Quadpro and take it to new heights. Mr. S A Athavale and Mr. Sham Bharadwaj opted to retire from their active business roles. This gave Quadpro an opportunity to bring in a new Investor/Partner and join hands with Mr. N B Thimmaiah to drive the business forward. At that time, Mr. Thimmaiah got connected with Mr. Sambasivan Srinivasan and Mr. Richard Michael Falcao who had collectively started a private limited company in the name of Scymes Services Private Limited. Scymes Services Private Limited had comprehended that their vision could get materialised by a collaboration with Quadpro. Hence, after Scymes Service Private Limited bought the stakes from Mr. S A Athavale and Mr. Sham Bharadwaj and became the 70% stake holders of Quadpro.

In 2020, the majority shareholder Scymes Services Pvt. Ltd. decided that they wanted to concentrate and build their own line of business and wished to sell out their stakes. Whereas, in the mean-time a company called Airan Limited (listed on NSE India) which is engaged in IT and ITeS Provider had been consolidating across India. They had been expanding the range and reach of their services by acquiring the businesses of their competitors through the means of mutual business-transfer agreements. The founder of Airan Limited, Mr. Sandeep Agrawal is a veteran in our line of business for 30+ years and has strategic relationships with banking, non-banking and financial institutions across and beyond India. While Mr. N B Thimmaiah was considering exploring a new and dynamic partner in propelling the already established Quadpro, Mr. Sandeep Agrawal on the other hand was on a consolidation drive of their competitors in India. Quadpro, being in the same segment as Airan Limited was also acknowledged by Mr. Sandeep Agrawal. Finally, the interests and goals of both Mr. N B Thimmaiah and Mr. Sandeep Agrawal aligned and they could see a bright future ahead and planned the growth story of Quadpro afresh. Hence, after careful due diligence Airan Limited acquired Quadpro in March 2021 and became its dominant stakeholder at 70%. As Quadpro became a part of Airan Group of Companies several processes got extended to Quadpro as well including but not limited to the Biometric KYC activity for Kotak Mahindra Bank's online platform Kotak 811, E-KYC for Amazon Pay India and Loan Document collection and processing for Lending Kart India. As the services provided by Quadpro changed over time: In April 2021, Quadpro E Services Private Limited was reborn as Quadpro ITeS Limited.

At present, Airan Limited is holding 75.90 % stake of Quadpro ITeS Limited.

The Financial Statements have been prepared under historical cost convention basis.

The Company has adopted IndAS and the adoption was carried out in accordance with IndAS 101, First-Time Adoption of Indian Accounting Standards. The transition was carried out from the Accounting Principles generally accepted in India as prescribed under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules 2014 and the relevant provisions of the Companies Act , 2013 ('the 2013 Act') / Companies Act 1956 ('the 1956 Act') as applicable Indian GAAP. For all the periods' upto 31st March 2020, Company prepared its financial statements in accordance with (Indian GAAP).These financial statements for the year ended 31 March 2021 are the first the Company has prepared in accordance with Ind AS. Refer to note 4 for information on how the Company adopted Ind AS.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.
The Company's presentation and functional currency is Indian Rupees.

2.2 Use of estimates

The preparation of the Company's IndAS financial statements requires management to make informed judgements, reasonable assumptions and estimates that affect the amounts reported in the financial statements and notes thereto. Uncertainty about these could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in the future periods. These assumptions and estimates are reviewed periodically based on the most recently available information. Revisions to accounting estimates are recognized prospectively in the Statement of Profit & Loss in the period in which the estimates are revised and in any future periods affected.

In the assessment of the Company, the most significant effects of use of judgments and/or estimates on the amounts recognized in the financial statements relate to the following areas:

• Useful lives of property, plant & equipment: The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.(Refer note 5)

• Impairment of investments in subsidiaries: The Company reviews its carrying value of investments carried at cost (net of impairment, if any) annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for in the statement of profit and loss.(Refer note 7(a))

• Provision for income tax and deferred tax assets: The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

• Employee benefits: The accounting of employee benefit plans in the nature of defined benefit requires the Company to use assumptions. These assumptions have been explained under employee benefits note.

3. Significant accounting policies

3.1 Current and Non-current classification

The Company presents assets and liabilities in the Balance Sheet based on Current/ Non-Current classification.
An asset is treated as Current when it is –
- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:
- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.
Deferred tax assets and liabilities are classified as non-current assets and liabilities.

3.2 Property, plant and equipment

Recognition and measurement

a) The cost of an item of property, plant and equipment is recognized as an asset only if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably.
b) Property, plant and equipment are stated at cost net of accumulated depreciation and accumulated impairment loss, if any.
c) The initial cost of an asset comprises its purchase price or construction cost (including import duties and non-refundable taxes) after deducting trade discounts and rebates, any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management, the initial estimate of any decommissioning obligation (if any) and the applicable borrowing cost till the asset is ready for its intended use.
d) Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.
e) Any gain or loss on disposal of an item of property, plant and equipmentis recognized in profit or loss.
f) Major spare parts which meet the definition of property plant and equipment are capitalized as property, plant and equipment. In other cases, the spare parts are inventorised on procurement and charged to Statement of Profit & Loss on issue/consumption.

Capital work-in-progress:

Projects under which property, plant and equipment are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

3.3 Intangible assets:

Intangible assets acquired separately are measured at cost of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and impairment losses, if any.
Intangible assets are amortized over their respective estimated useful life which reflects the manner in which the economic benefit is expected to be generated. The estimated useful life of amortizable intangibles is reviewed at the end of each reporting period and change in estimates if any are accounted for on a prospective basis.

3.4 Depreciation

Depreciation is provided for property, plant and equipment on a written down value so as to expense the cost less residual value over their estimated useful lives based on a technical evaluation. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

The estimated useful lives are as mentioned below:

Type of Asset	Useful Lives
Buildings	60 Years
Office Equipments	5 Years
Furniture & Fixtures	10 Years
Vehicles	8 Years
Computer Equipments	3 Years

Depreciation on assets acquired / disposed off during the year is provided on pro-rata basis with reference to the date of addition/disposal.

Intangible assets are amortized over a period of its useful life as estimated by the management.

Software's having specific estimated life are depreciated over a period of their useful life considering the straight line method of depreciation.

Cash flow Statement
Cash flows are reported using the indirect method, whereby profit/(loss) and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

3.6 Transaction in Foreign Currency
Foreign currency transactions are recorded at the exchange rate prevailing on the date of such transaction. Foreign currency monetary assets and liabilities are reported using the closing rate. Gains and losses arising on account of difference in foreign exchange rates on settlement/translation of monetary assets and liabilities on the closing date are recognized in the Statement of Profit and Loss.

3.7 Financial Instruments
A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

3.7.1 Cash and cash equivalents
Cash comprises cash on hand and demand / short term deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

3.7.2 Investments
Investments in liquid funds and equity shares are primarily held for Company's temporary cash requirements and can be readily convertible in cash. These investments are initially recorded at fair value and classified as fair value through profit or loss.
The Company measures investment in subsidiaries at cost less provision for impairment, if any.

3.7.3 Trade receivables
Trade receivables are amounts due from customers for sale of services in the ordinary course of business. Trade receivables are initially recognized at its transaction price which is considered to be its fair value and are classified as current assets as it is expected to be received in the normal operating cycle of the business.

3.7.4 Borrowings

Borrowings are initially recorded at fair value and subsequently measured at amortized costs using effective interest method. Transaction costs are charged to statement of profit and loss as financial expenses over the term of borrowing.

3.7.5 Trade payables
Trade payables are amounts due to vendors for purchase of goods and services in the ordinary course of business and are classified as current liabilities.

3.7.6 Other financial assets and liabilities
Other non-derivative financial instruments are initially recognized at fair value and subsequently measured at amortized costs using the effective interest method.

3.7.7 De-recognition of financial assets and liabilities
The Company derecognizes a financial asset when the contractual right to the cash flows from the asset expires or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction which substantially all the risk and rewards of ownership of the financial asset are transferred.
The Company derecognizes a financial liability when its contractual obligations are discharged, cancelled or expired; the difference between the carrying amount of derecognized financial liability and the consideration paid is recognized as profit or loss.

3.7.8 Leases - Company as a lessee
The Company has adopted Ind AS 116 - Leases effective 1 April 2020, using the modified retrospective method. However there is no significant impact due to this on the Company's financial statements. The Company, as a lessee, recognises a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset. The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the Company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset. The cost of the right-of-use asset shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

3.9 Impairment of assets
Financial assets
The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for doubtful trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

3.10 Revenue Recognition
The Company derives revenues primarily from consulting, technology, outsourcing, next-generation services and software. Contracts with customers are either on a time, unit of work, fixed-price or on a fixed-timeframe basis.
Revenues from customer contracts are considered for recognition and measurement when the contract has been approved in writing by the parties to the contract, the parties to the contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised services (“performance obligations”) to customers in an amount that reflects the consideration the Company has received

or expects to receive in exchange for these services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The Company allocates the transaction price to each distinct performance obligation based on the relative selling price. The price that is regularly charged for a service when sold separately is the best evidence of its relative selling price.

3.11 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of these assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in statement of profit and loss in the period in which they are incurred. There was no such case necessitating capitalization of borrowing costs during the year.

3.12 Provisions and Contingencies

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

3.13 Employees Benefit

Short term employee benefits:

Short term employee benefits are recognized as expenses at the undiscounted amount in the Statementof Profit and Loss of the year for which the related service is rendered.

Long term employee benefits:

a) Defined Contribution Plan:

As per applicable laws the eligible employees of the company are entitled to receive benefits under the provident fund, a defined contribution plan, in which both employees and company make monthly contribution at specified percentage of the covered employee salary. The contributions as specified under the law are paid to the respective provident fund authorities as specified by law as per the scheme framed under the governing laws.

b) Defined benefit plans:

The company has not formulated any specific terms of employment providing for specific retirement benefits. However as per applicable laws, the company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees at retirement, death/disablement while in employment or termination of employment, of an amount equivalent to 15 days salary with reference to the number of completed year of service and last drawn salary. The company has ascertain the liability on payable basis and has made provision as per the formula stated. but as required under Ind AS 19 "Employee Benefits", the company has not made provision for liability for gratuity payable in future based on an independent actuarial valuation.

c) Termination benefits:

Termination benefits are charged to the Statement of Profit and Loss in the year of accrual when the Company is committed without any possibility of withdrawal of an offer made to either terminate employment before the normal retirement date or as a result of an offer made to encourage voluntary retirement.

3.14 Taxes on income

Income tax expense comprises current and deferred tax expense. Income tax expenses are recognized in statement of profit and loss, except when they relate to items recognized in other comprehensive income or directly in equity, in which case, income tax expenses are also recognized in other comprehensive income or directly in equity respectively.

Current tax is the tax payable on the taxable profit for the year, using tax rates enacted or substantively enacted by the end of reporting period by the governing taxation laws, and any adjustment to tax payable in respect of previous periods.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred taxes arising from deductible and taxable temporary differences between the tax base of assets and liabilities and their carrying amount in the financial statements are recognized using substantively enacted tax rates and laws expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled. The deferred tax arising from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction are not recognized.

Deferred tax asset are recognized only to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences can be utilized. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax assets to be utilized. Deferred tax assets and liabilitiesare offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which gives rise to future economic benefits in the form of adjustment of future income tax liability. Accordingly, MAT is recognized as deferred tax asset in the balance sheet when the assets can be measured reliably and it is probable that the future economic benefit associated with the asset will be realized.

3.15 Earning Per Share

Basic earnings per share is computed and disclosed using the weighted average number of common sharesoutstanding during the year. Dilutive earning per share is computed and disclosed using the weighted averagenumber of common and dilutive common equivalent shares outstanding during the year, except when the resultswould be anti-dilutive.

Financial instruments - Fair value and risk management (continued)

iv. Market risks

Market risk is the risk of loss of future earnings or fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign exchange rates and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables. The Company is exposed to market risk primarily related to foreign exchange rate risk (currency risk), interest rate risk and the market value of its investments. Thus the Company's exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currencies.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

You should read the following discussion of our financial condition and results of operations together with our restated financial statements included in the Draft Prospectus. You should also read the section entitled "Risk Factors" beginning on page 15, which discusses a number of factors, risks and contingencies that could affect our financial condition and results of operations. The following discussion relates to our Company and, is based on our restated financial statements, which have been prepared in accordance with Ind AS notified under section 133 of the Companies Act, 2013, the Companies Act and the SEBI Regulations. Portions of the following discussion are also based on internally prepared statistical information and on other sources. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal year ("Fiscal Year") are to the twelve-month period ended March 31 of that year.

Our Company was originally incorporated as Private Limited Company in the name of "Quadpro Eservices Private Limited" under the provisions of the Companies Act, 1956 vide Certificate of Incorporation dated November 03, 2010 issued by the Deputy Registrar of Companies, Karnataka. Subsequently, the name of our company was changed to Quadpro Ites Private Limited on March 24, 2021 with certificate of Incorporation pursuant to change of name issued by Registrar of Companies, Bangalore. Consequent up on the conversion of our Company into public limited company, the name of our Company was changed to "Quadpro Ites Limited" and fresh certificate of incorporation dated April 7, 2021 was issued by the Registrar of Companies, Bangalore.

This very fact awakened the coining of the name "Quad-Pro", signifying Four Professionals that infused their expertise, experience, skills, knowledge and connections to form an amalgamation of strategy, innovation, and efficiency with a clear focus to capture opportunities in the BFSI Industry. The company was Initially Incorporated with four promoters and directors on the board namely: S A Athavale, D K Chakravarthy, S Ramesh, and Nandira Biddappa Thimmaiah. The unanimity of the four professionals, subsequently enabled a meditative undertaking to consolidate the small entities that were steered by the promoter directors. This facilitated the congregation of a systematic blueprint to construct and present, well-organized, resourceful, applicable and economical services.

In 2020, the majority shareholder Scymes Services Pvt. Ltd. decided that they wanted to concentrate and build their own line of business and wished to sell out their stakes. Whereas, in the mean-time a company called Airan Limited (listed on NSE Limited) which is engaged in IT and ITeS Provider had been consolidating across India. They had been expanding the range and reach of their services by acquiring the businesses of their competitors through the means of mutual business-transfer agreements. The founder of Airan Limited, Mr. Sandeep Agrawal is a veteran in our line of business for 30+ years and has strategic relationships with banking, non-banking and financial institutions across and beyond India. While Mr. N B Thimmaiah was considering exploring a new and dynamic partner in propelling the already established Quadpro, Mr. Sandeep Agrawal on the other hand was on a consolidation drive of their competitors in India. Quadpro, being in the same segment as Airan Limited was also acknowledged by Mr. Sandeep Agrawal. Finally, the interests and goals of both Mr. N B Thimmaiah and Mr. Sandeep Agrawal aligned and they could see a bright future ahead and planned the growth story of Quadpro afresh. Hence, after careful due diligence Airan Limited acquired Quadpro in March 2021 and became its dominant stakeholder at 70%. As Quadpro became a part of Airan Group of Companies several processes are being extended to Quadpro as well including but not limited to the Biometric KYC activity for Kotak Mahindra Bank's online platform Kotak 811, E-KYC for Amazon Pay India and Loan Document collection and processing for Lending Kart India.

As the services provided by Quadpro changed over time: In April 2021, Quadpro E Services Private Limited was reborn as Quadpro ITeS Limited.

At present, Airan Limited is holding 75.90 % stake of Quadpro ITeS Limited.

PHASED IMPLEMENTATION OF UPI FOR BIDS BY RETAIL INDIVIDUAL BIDDERS AS PER THE UPI CIRCULAR

SEBI has issued UPI Circular in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circular, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure

complete and smooth transition to the UPI Mechanism, the UPI Circular proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 and till June 30, 2019. Under this phase, a Retail Individual Applicant had the option to submit the Application Form with any of the intermediaries and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing would continue to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and the continuation of this phase has been extended until March 31, 2020. Under this phase, submission of the ASBA Form by RIIs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and is replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. Further, pursuant to SEBI circular dated March 30, 2020, this phase has been extended till further notice.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three Working Days.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The issuers are to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Bidders into the UPI Mechanism.

Applications may be made in single or joint names (not more than three). In the case of joint Applications, all payments will be made out in favour of the Applicant whose name appears first in the Application Form or Revision Form. All communications will be addressed to the First Applicant and will be dispatched to his or her address as per the Demographic Details received from the Depository.

MULTIPLE APPLICATIONS

An Applicant should submit only one Application (and not more than one). Two or more Applications will be deemed to be multiple Applications if the sole or First Applicant is one and the same.

In this regard, the procedures which would be followed by the Registrar to the Issue to detect multiple applications are given below:

I. All applications are electronically strung on first name, address (1st line) and applicant's status. Further, these applications are electronically matched for common first name and address and if matched, these are checked manually for age, signature and father/ husband's name to determine if they are multiple applications

II. Applications which do not qualify as multiple applications as per above procedure are further checked for common DP ID/ beneficiary ID. In case of applications with common DP ID/ beneficiary ID, are manually checked to eliminate possibility of data entry error to determine if they are multiple applications.

III. Applications which do not qualify as multiple applications as per above procedure are further checked for common PAN. All such matched applications with common PAN are manually checked to eliminate possibility of data capture error to determine if they are multiple applications.

In case of a mutual fund, a separate Application can be made in respect of each scheme of the mutual fund registered with SEBI and such Applications in respect of more than one scheme of the mutual fund will not be treated as multiple Applications provided that the Applications clearly indicate the scheme concerned for which the Application has been made.

In cases where there are more than 20 (Twenty) valid applications having a common address, such shares will be kept in abeyance, post allotment and released on confirmation of "know your client" norms by the depositories. The Company reserves the right to reject, in its absolute discretion, all or any multiple Applications in any or all categories.

After submitting an ASBA Application or Application through UPI Mechanism either in physical or electronic mode, an Applicant cannot apply (either in physical or electronic mode) to either the same or another Designated Branch of the SCSB. Submission of a second Application in such manner will be deemed a multiple Application and would be rejected.

An investor making application using any of channels under UPI Payments Mechanism, shall use only his / her own bank account or only his / her own bank account linked UPI ID to make an application in public issues. Applications made using third party bank account or using third party linked bank account UPI ID are liable for rejection. Sponsor Bank shall provide the investors UPI linked bank account details to RTA for purpose of reconciliation. RTA shall undertake technical rejection of all applications to reject applications made using third party bank account.

The Company, in consultation with the Lead Manager reserves the right to reject, in its absolute discretion, all or any multiple applications in any or all categories. In this regard, the procedure which would be followed by the Registrar to the Issue to detect multiple applications is given below:

1. All Applications will be checked for common PAN. For Applicants other than Mutual Funds and FII sub-accounts, Applications bearing the same PAN will be treated as multiple Applications and will be rejected.

2. For Applications from Mutual Funds and FII sub-accounts, submitted under the same PAN, as well as Applications on behalf of the Applicants for whom submission of PAN is not mandatory such as the Central or State Government, an official liquidator or receiver appointed by a court and residents of Sikkim, the Application Forms will be checked for common DP ID and Client ID.
